- 60' X 22' Shot blasting booth
- 90' x 22' Liquid paint booth
- 25'x 10' Powder coating booth
- Ficep Steel beam profiler

Ficep Steel Beam Profiler

Laser Cutting

We serve as a strategic source for quality laser cut of industrial, commercial and architectural components and fabrications.

Whether you require prototype work or production runs, we are the one stop source for all your custom manufacturing needs.

Our laser systems include nesting capabilities for optimum work piece positioning, and flying optics that enhance the laser's multi-axis machining abilities.

Shot Blasting

Surface finishing technique that involves rapidly impacting the surface of an object with a controlled stream of abrasive shot material.

We have experience in the field of surface preparation, and our process controls are your assurance that shotblasted parts will maintain consistency, repeatability and uniformity.

60' x 22' booth

Paint Services

Let OMC Steel hand your surface preparation and painting needs. We have the equipment and we have the experience.

90' x 22' booth

New Facilities

We have started operations in our new facilities, with the new buildings our capacity duplicated, providing 80,000 sf of roofed area.
